It's been some time since we accepted the challenge to build a new Community Center in Benton, and the project hasn't been without its trials. Our planning committees have been halted by COVID, mired in governmental red tape, faced with continually rising construction costs, and met unexpected setbacks with design and property issues. But we've been working hard to bring the project to fruition. Please help us meet our goal by donating to the BENTON COMMUNITY CENTER CAPITAL CAMPAIGN. Thank you!
